

# Health Studies

## ATAR Year 11

<b>Required Background:</b>	Achieved a C grade in Year 10 Mathematics and B grade in Science and English.
<b>Cost:</b>	\$100.00 per year in Senior School.
<b>Course</b>	<b>Unit One</b>
<b>Description:</b>	<p>This unit focuses on the health of individuals and communities. Students learn about health determinants and their impact on health. Health promotion is explored and used as a framework for designing approaches to improve health. Students examine attitudes, beliefs and norms and their impact on decision-making, and develop a range of key health skills. Students extend their understandings of factors influencing health, and actions and strategies to protect and promote health through inquiry processes.</p> <p><b>Unit Two</b></p> <p>This unit focuses on the health of individuals and communities. Students learn about health determinants and their impact on health. Health promotion is explored and used as a framework for designing approaches to improve health. Students examine attitudes, beliefs and norms and their impact on decision-making, and develop a range of key health skills. Students extend their understandings of factors influencing health, and actions and strategies to protect and promote health through inquiry processes.</p>
<b>Assessment Outline:</b>	Inquiry, Project, Response and Examination tasks.
